# Our Growth

# We're Delivering Goods All Over The Nation

**B2B Services**

The diagram features a light gray map of Indonesia in the background. A dark blue rounded rectangle labeled 'B2B Services' is positioned in the upper center. Two black lines branch out from the bottom of this rectangle. The left line connects to an orange rounded rectangle labeled 'Inter City 01', and the right line connects to a blue rounded rectangle labeled 'Intra city 02'. Below these rectangles are the phrases 'With In The City' and 'Outside The City' respectively.

**Inter  
City  
01**

**With In The City**

# There are two type of orders

## Orders

```
graph TD; A[Orders] --> B[corporate orders 01]; A --> C[Individual orders 02];
```

The diagram illustrates the classification of orders into two types. A central dark blue rounded rectangle labeled 'Orders' has two lines extending downwards to two separate colored rounded rectangles. The left rectangle is orange and labeled 'corporate orders' with a large '01' at the bottom. The right rectangle is blue and labeled 'Individual orders' with a large '02' at the bottom. The background features a faint world map.
